**Streptavidin biotin based directional
double Nanobody**

**April 23rd, 2020 - Influenza H5N1 is one
subtype of the influenza A virus which can
infect human bodies and lead to death
Timely diagnosis before its breakout is
vital to the human health The current
clinical biochemical diagnosis for
influenza virus are still flawed and the
diagnostic kits of H5N1 are mainly based**

on traditional monoclonal antibodies that hardly meet the requirements for clinical applications'
