'what is a quad  
antenna

May 20th, 2020 -  
the quad antenna  
is a type of  
directional  
antenna that  
typically has its  
elements  
configured into  
four sided square  
loops similar to  
a yagi antenna it  
usually possesses  
a driven element  
that sends or  
receives radio  
current through a  
feed line to a  
receiver or  
transmitter and  
one or several  
parasitic  
elements which  
modify the driven  
element s pattern  
direction and  
gain'
