Abstract In this chapter
we present a concise
introduction to the
theory of proper and
isometric actions We

begin with basic definitions and a quick primer on fiber bundles leading to the Slice Theorem 3 49 and the Tubular Neighborhood Theorem 3 57'

'Reeb foliation Wikipedia December 24th, 2019 - In mathematics the Reeb foliation is a particular foliation of the 3 sphere introduced by the French mathematician Georges Reeb 1920?1993 It is based on dividing the sphere into two solid tori along a 2 torus see Clifford torus'

'Ronald Brown Professor Emeritus web site Groupoids December 23rd, 2019 - Groupoids in Mathematics There are two opposing

views on the place of
groupoids in mathematics
One of these expressed in
R Crowell and R H Fox
Introduction to knot
theory CF is that a few
definitions like that of
a group or a topological
space have a fundamental
importance for the whole
of mathematics that can
hardly be exaggerated'
