plex spreading phenomena in social systems

May 13th, 2020 - plex spreading phenomena in social systems sunehmann yong yeol ahn this text is about spreading of information and influence in plex networks although there is now experimental evidence that epidemic and social spreading work in subtly different ways'

'supercomputer simulation of critical phenomena in complex

June 3rd, 2020 - the paper describes a problem of computer simulation of critical phenomena in plex social systems on a petascale computing systems in frames of plex networks approach the three layer system of nested models of plex networks is proposed including aggregated analytical model to identify critical phenomena detailed model of individualized network dynamics and model to adjust a'

'phase transitions in information spreading on structured

June 1st, 2020 - the mathematical modelling of how information spreads in social networks has latterly gained fresh urgency a study of realistic structured populations now identifies the threshold at which the'

'consensus and polarization in plex contagion

June 3rd, 2020 - the rate of adoption of new information depends on reinforcement from multiple sources in a way that often cannot be described by simple contagion processes in such cases contagion is said to be'

'collective influence centrality binning neighborhood

May 27th, 2020 - collective influence centrality binning neighborhood robustness and degree equilibrium in plex systems and plexity science 2019 16 1 26 35 url'
'xiaowen dong publications

May 21st, 2020 - conference on plex systems ccs thessaloniki greece september 2018 economical segregation of encounter networks in cities e moro d calacci x dong m
cebrian and a pentland international conference on putational social science ic2s2 evanston il usa july 2018 economical segregation of encounter networks in cities"theory of
rumour spreading in plex social networks

May 12th, 2020 - plex social networks these include the spreading of chain emails and in ternet hoaxes viral advertising and large scale data dissemination in puter and
munication networks via the so called gossip protocols 5 the rest of this paper is anized as follows in section 2 we describe our rumour model'

'plex spreading phenomena in social systems influence

May 10th, 2020 - plex spreading phenomena in social systems influence and contagion in real world social networks putational social sciences kindle edition by lehmann sune
ahn yong yeol download it once and read it on your kindle device pc phones or tablets use features like bookmarks note taking and highlighting while reading plex spreading
phenomena in social systems influence and"plex contagion process in spreading of online innovation

May 17th, 2020 - plex contagion process in spreading of online innovation márton karsai ideas and innovations as well as the distribution of services and products are all examples of
social spreading phenomena that have bee an integral part of our everyday life 2010 spontaneous emergence of social influence in online systems'

'plex spreading phenomena in social systems influence

May 13th, 2020 - plex spreading phenomena in social systems influence and contagion in real world social networks editors lehmann sune ahn yong yeol eds free preview'

'plex spreading phenomena in social systems plexity

May 17th, 2020 - plex spreading phenomena in social systems this text is about spreading of information and influence in plex networks although previously considered similar and modeled in parallel approaches there is now experimental evidence that epidemic and social spreading work in subtly different ways'

'supercomputer simulation of critical phenomena in complex

May 22nd, 2020 - supercomputer simulation of critical phenomena in complex social systems driver development of methods models scalable parallel algorithms and tools to study critical phenomena in plex'

'evidence of plex contagion of information in social

February 16th, 2018 - introduction the diffusion of information and ideas in plex social systems has fascinated the research munity for decades the first proposal to use epidemiological models for the analysis of the spreading of ideas was put forth more than fifty years ago such models where each exposure results in the same adoption probability are referred to as simple contagion models'

'siam journal on applied dynamical systems

May 13th, 2020 - plex spreading phenomena in social systems 3 25 2017 exploring the role of social media and individual behaviors in flood evacuation processes an agent based modeling approach water resources research 53 11 9164 9180"**plex contagion process in spreading of online innovation**

December 21st, 2016 - we empirically study the assumptions borrowed from conventional models of plex contagion and analyse the crucial effect of social influence finally we introduce an agent based model that bines the detected diffusion mechanisms and provides plausible medium term predictions for the spreading of online innovations in several countries worldwide'

'plex networks lip6 upmc cnrs

May 20th, 2020 - affinity index algorithm analysis antipaedo attack bipartite blog network blogs capitalisme social cascade centrality clustering munities munity detection munity structure plex network plex networks plex systems pression connected graphs data mining debian degree distribution degree peeling diameter diffusion diffusion phenomena distributed measurements dynamicnetworks"videos **lt plex networks**

April 17th, 2020 - affinity index algorithm analysis antipaedo attack bipartite blog network blogs capitalisme social cascade centrality clustering munities munity detection munity structure plex network plex networks plex systems pression connected graphs data mining debian degree distribution degree peeling diameter diffusion diffusion phenomena distributed measurements dynamicnetworks'

'effects of network structure petition and memory time

May 16th, 2020 - model for social spreading phenomena that in contrast to purely empirical studies or simulation based models clearly distinguishes the roles of two distinct factors affecting meme popularity the memory time of users and the connectivity structure of the social network doi 10 1103 physrevx 6 021019 subject areas plex systems i introduction"service adoption spreading in online social networks

May 6th, 2020 - the threshold model is a simple but classic model of contagion spreading in plex social systems to capture the plex nature of social influencing we investigate numerically and analytically'

'information spreading on weighted multiplex social network

June 2nd, 2020 - information spreading on multiplex networks has been investigated widely for multiplex networks the relations of each layer possess different extents of intimacy

which can be described as weighted multiplex networks nevertheless the effect of weighted multiplex network structures on information spreading has not been analyzed
*prehensively"***program plex networks theory methods and applications**

June 3rd, 2020 - tuesday 19 may morning 9 30 12 30 percolation processes on multiplex networks mendes many real plex systems cannot be represented by a single network but due to multiple sub systems and types of interactions must be represented as a multiplex network this is a set of nodes which exist in several layers with each layer having its own kind of edges represented by different colours'

'social systems ifisc

*May 17th, 2020 - social systems are prominent examples of plex systems emergent phenomena and the micro macro paradigm today s main societal changes and challenges arise from the feedback loop that entangles society with information and munication technologies ict as a prototypical socio technical system"***sean j taylor google scholar citations**

May 30th, 2020 - this cited by count includes citations to the following articles in scholar plex spreading phenomena in social systems 289 322 2018 14 2018 social influence from online social signals three experiments sj taylor new york university'

'link creation and information spreading over social and

March 23rd, 2020 - plex dynamics of social media emerge from the interaction between the patterns of social connectivity of users and the information exchanged along such social ties unveiling the underlying mechanisms that drive the evolution of online social systems requires a deep understanding of the interplay between these two aspects based on the case of the anobii social network an online service'

'plex spreading phenomena in social systems influence

May 9th, 2020 - this page contains information about plex spreading phenomena in social systems published by springer below you can find the table of contents as well as links to the

'influence of the initial source of epidemic and preventive

April 7th, 2020 - relations describing the spreading process of epidemics like epidemic curve or range of epidemic in time were found the influence of the borders of the lattice and the localization of the initial source of epidemic on the epidemic curve is found analytically the application of the preventive vaccination in the population is discussed'

'bots increase exposure to negative and inflammatory

April 1st, 2020 - societies consist of agents engaging in multimodal social actions with one another in a plex system this society as system metaphor inspired many putational studies aimed at identifying at a microscopic level how social interactions might lead to emergent global phenomena such as social segregation spreading of information and behavior 4 5"publications hernan maksehernan makse

May 22nd, 2020 - s pei f morone h a makse theories for influencer identification in plex networks in plex spreading phenomena in social systems edited by sune lehmann and yong yeol ahn springer nature 2017'

'considering plexity animal social networks and

May 6th, 2020 - the spread of behaviours through animal social networks have often been considered as simple contagions however research across other disciplines now provides substantial grounding for the plex contagion of behaviours the study of animal behaviour could benefit greatly from generally expanding to incorporate these new insights"robert m bond

May 23rd, 2020 - social influence 13 2 104 116 2018 supplementary information bond robert m christopher j fariss jason j jones and jaime e settle network experiments through

academic industry collaboration in ahn yong teol and sune lehman eds plex spreading phenomena in social systems springer 2018"**ranking the spreading influence in plex networks**
June 3rd, 2020 - identifying the node spreading influence in networks is an important task to optimally use the network structure and ensure the more efficient spreading in information in this paper by taking into account the shortest distance between a target node and the node set with the highest k core value we present an improved method to generate the ranking list to evaluate the node spreading influence'

'sen pei research

May 26th, 2020 - for a more prehensive explanation of the theories for influencer identification please read our review paper influencer identification in dynamical plex systems or the book chapter theories for influencer identification in plex networks in plex spreading phenomena in social systems springer nature'

'putational social sciences ser plex spreading

May 28th, 2020 - find many great new amp used options and get the best deals for putational social sciences ser plex spreading phenomena in social systems influence and contagion in real world social networks trade cloth at the best online prices at ebay free shipping for many products"nuno crokidakis plex systems

April 7th, 2020 - the research topic i am more interested in the last years is the modeling of social phenomena the relation of these systems with the traditional physics is not restricted to the occurrence of critical phenomena just as statistical physics models explain how a collection of atoms can exhibit the correlated behavior necessary to produce a"plex spreading phenomena in social systems influence

May 22nd, 2020 - plex spreading phenomena in social systems influence and contagion in real world social networks putational social sciences 1st ed 2018 edition by sune lehmann editor yong yeol ahn editor isbn 13 978 3319773315 isbn 10 3319773313 why is isbn important isbn this bar"**yan leng mit**

April 25th, 2020 - list of papers leng y yella y ruiz r amp pentland a contextual centrality going beyond network structure accepted to nature scientific reports arxiv liu'
'service adoption spreading in online social networks core

October 4th, 2018 - the collective behaviour of people adopting an innovation product or online service is mostly interpreted as a spreading phenomenon throughout the fabric of society this process is arguably driven by social influence social learning and by external effects like media'

'predicting the behavior of techno social systems science

*February 21st, 2020 - we live in an increasingly interconnected world of techno social systems in which infrastructures posed of different technological layers are interoperating within the social context that drives their use and development examples are provided by the internet the world wide web wifi communication technologies and transportation and mobility infrastructures"***service adoption spreading in online social networks**

May 19th, 2020 - the collective behaviour of people adopting an innovation product or online service is mostly interpreted as a spreading phenomenon throughout the fabric of society this process is arguably driven by social influence social learning and by external effects like media"containment of rumor spread in plex social networks

June 3rd, 2020 - 1 introduction propagation phenomena can be observed in many plex systems as diverse as diffusion of innovation belief and information in social networks epidemics spread in human and animal physical contact networks cascading failures in infrastructure networks virus spread in puter networks etc'

'exploring the role of intrinsic nodal activation on the

May 18th, 2020 - in many plex networked systems such as online social networks at any given time activity originates at certain nodes and subsequently spreads on the network through influence to model the spread of influence in such a scenario we consider the problem of identification of influential entities in a plex network when nodal activation can happen through two different mechanisms'

'influence spreading model used to analyse social networks

June 3rd, 2020 - a dynamic influence spreading model is presented for putting network centrality and betweenness measures network topology and possible directed connections and unequal weights of nodes and links are essential features of the model the same influence spreading model is used for community detection in social networks and for analysis of network

structures'

'plex spreading phenomena in social systems springer

May 23rd, 2020 - this text is about spreading of information and influence in plex networks although previously considered similar and modeled in parallel approaches there is now experimental evidence that epidemic and social spreading work in subtly different ways'

'sen pei columbia university

*June 1st, 2020 - 06 23 2018 our book chapter theories for influencer identification in plex networks in book plex spreading phenomena in social systems is published by springer nature 06 20 2018 i am invited to serve as a review editor for journal frontiers in physics 04 04 2018 shaman group attend the 2018 nih midas annual network meeting at washington dc"***social bot**

May 9th, 2020 - a social bot also socialbot or socbot is an agent that municates more or less autonomously on social media often with the task of influencing the course of discussion and or the opinions of its readers it is related to chatbots but mostly only uses rather simple interactions or no reactivity at all the messages e g tweets it distributes are mostly either very simple or"macroscopic patterns of interacting nature physics

May 28th, 2020 - knowledge of the spreading mechanisms of contagions is important for understanding a range of epidemiological and social problems a study now shows that so called simple and plex contagions'

'sen pei google scholar citations

June 3rd, 2020 - new citations to this author new articles related to this author s research plex spreading phenomena in social systems 125 148 2018 27 detecting the influence of spreading in social networks with excitable sensor networks s pei s tang z zheng plos one 10 5"
