What causes wind Weather Questions amp Answers

May 8th, 2018 - What causes wind Wind is caused by air flowing from high pressure to low pressure Since the Earth is rotating however the air does not flow directly from high to low pressure but it is deflected to the right in the Northern Hemisphere to the left in the Southern

Hemisphere so that the wind flows mostly around the high and low pressure' **Western culture Wikipedia**

May 9th, 2018 - Western culture sometimes equated with Western civilization Occidental culture the Western world Western society European civilization or Christian civilization is a term used very broadly to refer to a

heritage of social norms ethical values traditional
