Special Relativity and Classical Field Theory The April 24th, 2020 - There is a book on physics in general one on quantum mechanics and a book on classical mechanics They go along with a video course Dr Susskind teaches I've not seen the videos though But the book I have should tell us the basics of special relativity and field theory A Does it do that David gets up and heads to Starbucks' 'Special Relativity and Electrodynamics Spring 2012

April 26th, 2020 - In 1905 while only twenty six

years old Albert Einstein published *On the Electrodynamics of Moving Bodies* and effectively extended classical laws of relativity to all laws of physics even electrodynamics In this course we will take a close look at the special theory of relativity and also at classical field theory'

'**Classical field theory The Theoretical Minimum**
April 20th, 2020 - Professor Susskind moves on from relativity to introduce classical field theory The most mostly studied classical field is the electromagnetic field however we will start with a less plex field one in which the field values only depends on time not on any spatial dimensions'
