July 12th, 2018 - by Dinesh Thakur Category RDBMS Relational Algebra is a  
procedural language that can be used to tell the DBMS how to build a new relation  
from one or more relations in the database and the Relational Calculus is a non  
procedural language that can be used to formulate the definition of a relation in  
terms of one or more database relations"ncert solutions for class 9 english literature
