Sampling error Wikipedia

May 9th, 2018 - In statistics sampling error is the error caused by observing a sample instead of the whole population The sampling error is the difference between a sample statistic used to estimate a population parameter and the actual but unknown value of the parameter'

'What is the difference between stratified random sampling

October 1st, 2017 - Stratified and cluster sampling both attempt to deal with problems with simple random sampling The first problem is that while a simple random sample may technically be unbiased it may not be representative'
