## **How To Backtest Machine Learning Models for Time Series**

*December 18th, 2016 - Techniques That You Can Use Instead The goal of time series forecasting is to make accurate predictions about the future The fast and powerful methods that we rely on in machine learning such as using train test splits and k fold cross validation do not work in the case of time series data This''**Regression Analysis Examples of Regression Models***

*May 6th, 2018 - Regression analysis is used to model the relationship between a response variable and one or more predictor variables Learn ways of fitting models here''**Prediction Wikipedia***

***May 10th, 2018 - In science a prediction is a rigorous often quantitative statement forecasting what would happen under specific conditions for example if an apple fell from a tree it would be attracted towards the center of the earth by gravity with a specified and constant acceleration'***
