***general relativity from eric weisstein s world of physics***

*June 3rd, 2020 - a theory invented by albert einstein which describes gravitational forces in terms of the curvature in space caused by the presence of mass the fundamental principle of general relativity asserts that accelerated reference frames and reference frames in gravitation fields are equivalent general relativity states that clocks run slower in strong gravitational fields or highly accelerated'*

**'understanding gravity warps and ripples in space and time**

**June 6th, 2020 - gravity is the curvature of the universe caused by massive bodies which determines the path that objects travel that curvature is dynamical moving as those objects move in einstein s view of the world gravity is the curvature of spacetime caused by massive objects image source t pyle caltech mit ligo lab"john archibald wheeler abebooks**
