'What cycles recycle matter through an ecosystem

Answers

November 25th, 2019 - The matter would begin to pile up in an ecosystem and the level of nutrients in the soil would eventually start to decrease which would affect plant growth Matter is constantly cycled through ecosystems and this cycling is what provides a constant supply of nutrients for plants"

article Ecology Khan Academy

December 26th, 2019 - Ecosystems and biomes

What is an ecosystem Biogeochemical cycles Science

· Biology · Ecology · Intro to ecosystems What is an

ecosystem Learn what an ecosystem is how energy

and matter move through ecosystems and what
