**mazda 100th
anniversary mazda
June 1st, 2020 - mazda
celebrated its 100th
anniversary on january
30 2020 to show our
gratitude to customers
fans and friends who
have given their
enduring faithful
support to mazda and
our cars we are sharing
stories about mazda s
history we have also
created a list of the
legendary mazdas
across the
ages"*superconductor
history***

June 1st, 2020 - the first widely accepted theoretical understanding of superconductivity was advanced in 1957 by american physicists john bardeen leon cooper and john schrieffer above their theories of superconductivity became know as the bcs theory derived from the first letter of each man s last name and won them a nobel prize in 1972'

'celebrating 100 years of superconductivity

May 17th, 2020 - to celebrate 100 years of superconductivity we have chosen 25 articles selected for their relevance and impact their abstracts are shown here in this special collector s edition brochure the selected articles have been chosen from five journals superconductor science and technology" milestones discovery of

**superconductivity 1911
May 24th, 2020 - during
the 100 years since its
discovery the
phenomena of
supraconductivity or
superconductivity as it
was later known has
been observed in more
than 10 000 elements
pounds and alloys but
in all instances the
phenomena was always
only observed at
temperatures well
below room
temperature'**
