mathematical

May 14th, 2020

- on the philosophical end of the spectrum there is an article by john stillwell about what constitutes depth in mathematics he subsequently expanded these ideas into a book elements of mathematics from euclid to godel that was reviewed in this column about nine months

ago ' **kurt gödel**
separating
truth from
proof in
mathematics

January 21st,
2020 - i n 1931
a young
austrian
mathematician
published a
paper that sent

shock waves
through the
mathematical
community and
forced
mathematicians
to take a fresh
look at their
discipline the
mathematician
was kurt gödel
and the result
proved in his
paper became
known as the
gödel
inpleteness
theorem or more
simply gödel s
theorem
although it was
by no means the
only major
theorem he'
