**advancing the health of
refugees and displaced
persons**

**June 3rd, 2020 - the
health of refugees and
displaced persons is
shaped by the
destabilizing factors
leading to forced
displacement the refugee
resettlement system and
the health services
available during each
phase of the
resettlement process
causes of instability
and displacement war and
conflict are the main
causes of
displacement' 'how health
systems can address
health inequities linked
to**

June 4th, 2020 - both
being a migrant and
belonging to an ethnic
minority are frequently
associated with impaired
health and poorer access
to health services
furthermore both groups

are more exposed to social disadvantage and exclusion though it is important to emphasize that this is an average tendency which does not apply to all individuals'

'psychological difficulties among children and adolescents
