## ship history of ships britannica

May 31st, 2020 - ship ship history of ships surviving clay tablets and containers record the use of waterborne vessels as early as 4000 bce boats are still vital aids to movement even those little changed in form during that 6 000 year history the very fact that boats may be quite easily identified in illustrations of great antiquity shows how slow and continuous had been this evolution until just 150'

### 'seadog beard tv tropes

May 27th, 2020 - as mentioned above it was largely enforced trope in time of wooden ships and iron men and even into the later 19th early 20th century for most seamen at least while at sea shaving without freshwater was next to impossible and most of the limited supply of freshwater carried by ships of the era was necessary for drinking and cooking this condition existed even longer on smaller naval'
