'Configuring the Networked Citizen by Julie E

Cohen

March 9th, 2020 - Among legal scholars of technology it has been commonplace to acknowledge that the design of networked information technologies has regulatory effects. For the most part that discussion has been structured by the taxonomy developed by Lawrence Lessig which classifies code as one of four principal regulatory modalities alongside law

markets and norms'

**'The Networked Self in the Modulated Society
SpringerLink**

March 12th, 2020 - Abstract The theme of the book ? global munity global archipelago or a new civility ? echoes a question that has often been posed about transformative new technologies 1 Will such technologies connect us or divide us

Will networked information technologies produce a new global cosmopolitanism characterized by enlightened tolerance and mutual recognition of common interest and'
