---

description lz expand press api dll  
errors related to lz32 dll can arise  
for a few different different reasons  
for instance a faulty application lz32  
dll has been deleted or misplaced  
corrupted by malicious software  
present on your pc or a damaged  
windows registry''calling win32 api  
functions testplete documentation  
June 5th, 2020 - note however that  
omitting the win32api object name  
before the method name can cause  
method conflicts if another object

---

---

which allows skipping its name  
provides the method with the same name  
to solve the problem put the win32api  
object name before the function name  
for example to call the win32 api beep  
function use the win32api beep  
notation rather than just beep  
otherwise'
