'book trimming

May 20th, 2020 - book

trimming is the stage of

the book production

process in which the

page edges of a book

are trimmed so that all

pages will stack with perfect edge alignment within the finished book jacket the step before book trimming is the binding of the folded printing sheets trimming is performed either with a hydraulic book trimmer that is able to cut a whole book in one or two passes or until

how to make a hollow book 13 steps with pictures wikihow May 25th, 2020 - cut along the inside of the drawn line with a straight edge knife a box cutter works especially well try to make the cut as vertical as possible or else try to tilt it so the hole will narrow as you go down using a ruler as shown in the image can help a lot apply enough pressure to cut a few pages at a time or as many as you would like'
