contests the book's best feature is each chapter's pithy introduction that demystifies a particular scheme or algorithmic approach"*Programming challenges the programming contest training*

December 26th, 2019 - The ACM's International Collegiate Programming Contest ICPC is the world's oldest and largest programming contest. Although students can benefit both pedagogically and professionally from participating in this contest, participation in North America is far smaller than in the rest of the world, which we partially attribute to the perceived low payoff of participating in ICPC.
