*msc in theoretical and  
putational chemistry*

*May 28th, 2020 - about the  
course the three primary  
activities in theoretical and  
putational chemistry are  
development of new theory  
implementation of methods as  
reliable software and  
application of such methods to  
a host of challenges in  
chemical and related sciences  
the msc aims to train new  
research students to be able to  
deliver these outes'*
