please don t eat the daffodils the canberra times

May 27th, 2020 - daffodils need cold winters if they are to bloom and also don t do
well with hot dry summers while we can provide the cold winters we do also have those
summers like the backblocks of hades''garden guides are daffodils perennials

June 3rd, 2020 - daffodils grow best when planted in a moist but well drained soil
avoid planting them in pacted or heavy soils that readily flood or remain wet for
long periods after rain bulbs rot in oxygen depleted ground ideally when daffodil
bulbs are dormant in summer warm and dry soil is better than cool wet conditions'
