'situational low self-esteem nursing diagnosis guide

June 3rd, 2020 - The nursing diagnosis: situational low self-esteem is defined as the development of a negative perception of self-worth in response to current situation. Self-esteem is defined as the way an individual thinks about himself or herself and how good he or she feels. Positive self-esteem develops when a person feels good and capable of responding to challenges and stressors.' **'nursing diagnosis handbook: an evidence-based**
