'deadlands

May 24th, 2020 - deadlands is a
genre mixing alternate history
role playing game which bines
the western and horror genres
with some steampunk elements
the original game was written by
shane lacy hensley and
published by pinnacle
entertainment group in 1996 the
eight times origins award winning
setting has been converted to
many other systems over the
years and is available in the

original classic rules'

'sevtech

May 26th, 2020 - sevtech does indeed use a heat humidity grid system for its biome generation the z axis determines temperature and the x axis determines humidity both follow a periodic pattern similar to a sine wave where you move from one extreme to another and the moderate levels are in between"
